

# OUR 2018 CHARITY

---

Personal words from Dr Dev Patel: "I am proud to announce the Multiple System Atrophy Trust as Perfect Skin Solutions' nominated charity for 2018. This charity has special significance to me and my family. My father - Dr Ramesh Patel - died from MSA in 2016. My father was my role model and over the years I learnt a lot of 'golden nuggets' not to be found in any medical textbooks from him, which made me the doctor I am today. During my military and NHS career I treated a number of patients who had been previously treated by my father, and many commented on how I had a similar bedside manner to his. My father served the Portsmouth community as a GP for over 30 years. He also helped set up a GP service for the homeless and was an extremely generous donor to numerous charities over the years. An NHS patient of mine a few years back said to me..."I never met your father but I've heard of him.....he's a legend." You don't often hear that being said about your local GP.

The Multi System Atrophy Trust is the only charity registered in the UK and Ireland providing specialist support to people living with and affected by multiple system atrophy (MSA). The Trust supports people with MSA, their families and friends, careers and health and care professionals. It provides individual advice and information, and information, a helpline, a regular magazine and support groups spread nationwide. The Trust, through its donors, remains the sole funder of medical research to find both a cause of and cure for MSA.

Perfect Skin Solutions pledges to support the MSA Trust and this in turn, will mean that each of our loyal and valued customers who spend their money at our clinic, will be supporting the Trust too.

If you wish to know more about the MSA Trust, please visit their website: <http://www.msatrust.org.uk/>
